President's Message

Dear Students,

We would like to congratulate you upon your years-long efforts that paved the way for your study at METU, a university where most talented students will learn from the best academics and most inspiring professors who are leaders in their fields both within Turkey and around the world. Your education at METU covers a broad range of activities associated with science, art, sports and culture that will enhance your personal development. We encourage our students to participate in seminars, concerts, plays, movies, talks, a diverse array of social and intellectual activities that will be held throughout the year across the Campus so that they develop as individuals who have the capability to acquire sophisticated skills from the very beginning of their studies.

METU is a university where researchers pull out all the stops to produce new knowledge, translate research knowledge into practice and disseminate knowledge. It is a university committed to educating individuals who are concerned about and seek right solutions to issues on the national and global agenda; and who think freely and voice their thoughts and opinions freely. METU is a place where the enthusiasm and ideals of young people are nurtured and the possessors find opportunities that allow them to apply their ideals to life. Our campus is situated amongst trees and greenery in an area that used to be called 'Central Anatolian steppe'. This beautiful forest was created by members of the METU community, who had a heartfelt commitment to the attributes that characterise METU's overall university culture.

METU occupies a privileged place in higher education. Its secret to success lies in innovative technologies integrated with its existing infrastructure, and with the University's core activities of research and education. The engine driving METU's success is its interdisciplinary approach to the core, embedded throughout the culture of the University, that promotes cross disciplinary interactions that provide exposure to new knowledge and offer new perspectives. Its approach to learning that promotes 'learning from one another, through collaboration' is another key to METU's success.

Online Orientation Program is being held to support you during your adaptation process to your new life at METU. A range of events, organized by the University, will be taking place to provide an opportunity for you to familiarize yourselves with the Campus, get acquainted with others and make new friends. These events will also give the newcomers another opportunity to meet the University's administration and faculty, as well as offering a wealth of information about student resources, campus life and academic process. I truly hope that you will keep your enthusiasm alive when adjusting to the new environment and throughout your four years of study. I also hope that you will actively participate in and fully benefit from the opportunities and educational programs offered at METU. It is only through enthusiasm and passion that you will contribute to the scientific and social wealth of METU.

Welcome, new METU students!

I wish you good health, success and happiness...

Prof. Dr. Mustafa Verşan KÖK

METU President

Campus President's Message

To our new International Students,

Welcome to the METU community. We wish you success in your studies here.

Middle East Technical University Northern Cyprus Campus (METU NCC) was established as a result of an invitation conveyed to METU in the year 2000 by the Government of the Republic of Turkey and the Turkish Republic of Northern Cyprus. It is a major higher education project financed by the Republic of Turkey and serves not only the Turkish students but also the international community. METU NCC enjoys full academic and administrative support from METU in Ankara.

Our graduates are entitled to receive the METU diploma undersigned by the METU President and enjoy the worldwide recognition and prestige of the METU diploma in job markets and graduate admissions. METU took the top spot across Turkey in the Research Universities Performance Monitoring Index Rankings 2020 based on a broad range of strengths, for the fourth year in a row, and continued to hold the place of the best university by being ranked the first in the list of TÜBİTAK's Entrepreneurial and Innovative University Index 2021, for the second successive years. On a global scale, METU was ranked first among all universities in Turkey in the list of QS EECA Rankings 2022 that includes top universities in Emerging Europe and Central Asia. We believe this has much to do with the great accomplishments of our now around 145.000 alumni from more than countries all over the world. METU NCC provides an excellent learning environment for all undergraduate and graduate students. Our academic staff includes colleagues coming from 14 different countries, and they all received their PhD degrees from the leading universities in the world. Currently, our student to faculty ratio is 20, and the average classroom size is only 19. The faculty are deeply engaged in undergraduate teaching, and they are always available to students outside the classroom as well. In other words, we provide personalized education to our students. The emphasis on close student-faculty interaction, when considered together with the academic qualifications of our faculty, clearly puts METU NCC in a very favourable position not only in Turkey and TRNC but also among the universities worldwide.

METU Northern Cyprus Campus, the first overseas campus of a Turkish University, is especially keen to develop a truly international profile of both the academic staff and the student body. We have students from 47 countries all around the world.

Like everywhere in the world, the 2020-2021 academic year was a challenge for METU NCC. At the start of the 2021-2022 academic year, the COVID-19 pandemic continued to cause massive disruptions to universities. Generally, however, our university acted in an efficient manner during an extraordinary year framed by a global pandemic and strict measures designed to prevent the spread of COVID-19. We found new ways to connect, stay connected and take care of our campus community from a distance, to address immediate needs to ensure student success. In addition, we collaborated with the national public health institutes to pool resources and to help the greater community cope with the new realities society faces. And all these efforts have facilitated much of our COVID-19 response. In a similar vein, our students and staff demonstrated great innovation and creativity as traditional classes have shifted to online hybrid environments.

This brochure gives information about registration, English language requirements and other procedures required of international students at METU Northern Cyprus Campus.

MAT100 Pre-calculus course aims to provide students who have met English language requirements for the undergraduate programs a mathematical background for the courses. Students will be acquainted with basic mathematical concepts which are required for Calculus and other courses and they will be expected to have skills in describing the real-world problems as mathematical models. A successful student will:

- a. Become comfortable with the language of functions;
- b. Gain an understanding of polynomial, rational, exponential, logarithmic and trigonometric functions and ability to describe their graphs;

c. Be able to solve linear and quadratic equations and equations with exponential and logarithmic functions;

d. Gain problem solving skills analyzing the quantitative aspects of real-world problems and creating mathematical models.

Students will take this course during the first year of their undergraduate programs or if they fulfill the English language requirements, they can take this course in the summer term before the first year. Students who get a score of at least 50 at the Mathematics Proficiency Exam will be exempted from the MAT 100 course and enroll directly for the MAT 119 course. MAT 100 Proficiency Exam will be held on **February 13, 2023 09:00 a.m (TRNC Local Time)**. Details will be sent later regarding the exam.
